

Manufacturer of Precision Coaxial Connectors

SGMC Microwave recognizes our responsibility as a supplier of coaxial connectors and components potentially used within electronic-based systems and products that will be targeted for RoHS compliance. We are fully committed to offering RoHS compliance on our products. We have achieved this by a combination of supplier certifications and engineering design specifications. SGMC Microwave is in full compliance with the RoHS directives 2002/95/EC, which became effective July 1, 2006.

What is RoHS Compliance?

The European Union set forth the RoHS (*Restriction of Hazardous Substances*) Directive to establish environmental guidelines and legislation to reduce the presence of six (6) materials deemed hazardous to the environment. To comply, products entering the EU must not have a homogeneous presence of these materials above the following levels by weight percentage.

Restricted Substance	Lead (Pb)	Mercury (Hg)	Hexavalent Chromium (CrVI)	Polybrominated Biphenyls (PBB)	Polybrominated Diphenyl Esters (PBDE)	Cadmium (Cd)
Restricted Limit (%)	0.1	0.1	0.1	0.1	0.1	0.01
Restricted Limit (ppm)	1,000	1,000	1,000	1,000	1,000	1,000

SGMC Microwave's products are in compliance with RoHS and we will continue to maintain our certification by continual verification as well as the retention of material certifications from all of our suppliers in question.
